When students have a question, Mr. Hosseini answers it speedily, which is great; however, it would be better if he suggested more hints towards the answer and served more as a guide.
I don't have any recommendations for Ryien, he did a phenomenal job running the lab

I thought the labs were very helpful to my learning. Ryien knew what he was talking about and was able to relate it to us effectively and was very helpful when we got stuck.
Was constantly helping students during class, offered help after lab a few times when my group had one more thing to do.
Mr. Hosseini exhibits the perfect blend of leniency and discipline. Most of the time, Mr. Hosseini takes attendance from memory (due to developing a personalized understanding of students) rather than the formal sign-in. During instruction, however, he expects a strong degree of focus and takes academic integrity seriously. When multiple students have different problems at the same time, Mr. Hosseini addresses them in such a way that every group has the ability to resolve them in a timely manner.
Ryien was an excellent teacher, he was always able to help with any question we had and no one was afraid to reach out to him because he was so genuine and understanding. The mini lessons before the class always helped me get a deeper understanding of the content and before we moved on he would always ask the class if they comprehended the lesson.
Ryien was a great instructor. He was willing to help me during and outside of lab and was approachable when I had issues with my group. He also explained material in a way that made sense and go beyond the explanations in Runestone.

Ryien was great! Consistently helpful and willing to take time outside of class to explain concepts and help us finish our labs. In general, he did a good job of explaining the material and identifying errors that we might not have caught and explaining why those errors had the effects they did.
